

**MACHINE BUILDER**  
*ENTRY LEVEL*

JOB DESCRIPTION

**Duties:**

- This is full time with overtime opportunity to perform and assist with the custom machine building trade.

**Requirements:**

- A basic understanding and curiosity for electrical theory and principles.
- A basic understanding and curiosity for mechanical theory and principles.
- A desire to work with their hands to create industrial equipment.
- Must possess a desire to become competent in working around electrical equipment.
- The common sense to recognize unsafe conditions and hazards in the workplace and take action to eliminate the risks.
- The ability to work under minimal supervision.
- Must be willing to travel to customers' facilities for installation, startup, and service.
- The desire to improve skills through various training opportunities as offered by the company.
- Must have a good driving record.

**Job Qualifications:**

- Experience in machine building or similar experience in a related industry would be plus but is not required.
- Vocational school or junior technical college training in the related industry is a plus.
- Baseline robotic knowledge would be plus but is not required.
- Must meet the company's substance abuse testing requirements; as a safety-sensitive person may be subject to random substance abuse checks.
- Valid state motor vehicle operator's license.

**Physical Demands:**

1. This position may require constant standing and frequent walking, kneeling, bending, crouching, and twisting.
2. Working in machine building also requires constant cervical flexion, the chin to chest movement. Maximum lifting weight can reach about 50lbs, maximum carrying weight is about 30lbs, and the maximum pushing and pulling weights can reach 100-150lbs.
3. Frequent forward and lateral reach may be required, as well as frequent grasping, handling, pinching. Working in this position requires a very strong ability to work alone and self-supervised as well as the ability to supervise others.
4. It also requires the ability to handle attention to detail, tight deadlines, responsibility and accountability, and the ability to multi-task.

**What we offer:**

- Alliance Automation benefits include, but not limited to,
- Hourly wage based on experience.
- Paid vacation.
- Sick time.
- Medical/Dental

The physical work requirements of this position are at times strenuous. The job requires standing for long periods and frequent work on ladders and scaffolds. Install working conditions.

If you are a person who enjoys building things with your hands and leaving work most days feeling a sense of accomplishment while learning a trade that will benefit you the rest of your working career, this could be the job for you.
